

Francis Chen

fxchen12@mit.edu 574-339-5141 francischen.org

MIT S.B. in Computer Science and Engineering (CSE)
MIT M.Eng. Candidate in CSE - 6/2016 (expected)
GPA: 4.6/5

Skills

Languages: Python, Scala, HTML/CSS/JavaScript, Java, C++, C, Perl

Key coursework: Elements of Software Construction, Performance Engineering of Software Systems, Design and Analysis of Algorithms, User Interface Design and Implementation, Computer System Engineering

Experience

Software Engineering Summer Intern in Sponsored Links, A9.com since 6/2015

- › Using machine learning to solve time series forecasting problems, informing business strategy
- › Working with Scala and Python, leveraging Spark, Hadoop, and Hive for big data processing

User Experience (UX) Intern, OutLearn Inc. 1/2015

- › Designed mockups for content creation, discovery and management, using UXPin
- › Collaborated with company leadership, fellow designer, and engineers, adopting Agile methodology

Technology Associate Summer Intern, Bridgewater Associates 6/2014 - 8/2014

- › Built a strategic data ingestion tool for the company's next-generation research platform
- › Assessed relevant business problems, designed solution, and implemented solution in Scala

Platform Infrastructure Engineering Summer Intern, Akamai Technologies 6/2013 - 8/2013

- › Built a software tool for hard drive error detection intended for over 10,000 Windows servers
- › Designed, developed, and tested software tool, working in Perl

Activities

Teaching Assistant (TA) for Oral Communication at MIT since 7/2014

- › Will lead 4 sections of around 6 students each, providing public speaking coaching and feedback
- › Re-designing front-end of course website, using HTML, CSS, and JavaScript

Gordon Engineering Leader, MIT Gordon Engineering Leadership (GEL) Program 4/2013 - 5/2015

- › Completed two-year leadership curriculum, earning Advanced Certificate of Engineering Leadership
- › Shaped first year GEL student experience actively as mentor and Assessment Team member

Teaching Assistant (TA) for Engineering, Innovation, and Design at MIT 9/2014 - 5/2015

- › Wrote documentation and delivered lectures to explain technical course content
- › Answered student questions both in-person and online, serving approximately 60 students over 2 semesters

Undergraduate Researcher, MIT Weiss Lab for Synthetic Biology 6/2013 - 8/2014

- › Designed high-throughput microfluidic DNA assembly system, involving both hardware and software
- › Earned Technical Report Award from department's Advanced Undergraduate Research Program
